EXPERIENCE

Software Engineer Intern | Infosys, Mysore

October 2025 – April 2026

- Completed enterprise software development training covering Java, Data Structures & Algorithms, DBMS, and software engineering best practices.
- Earned certifications in Oracle 21c Administration, Backup & Recovery, and Database Essentials.
- Applied database administration concepts, including backup strategies, recovery mechanisms, security controls, and performance optimisation in simulated enterprise environments.
- Collaborated in team-based assignments and code reviews, strengthening software development and problem-solving skills.

SELECTED PROJECTS

UrNumerals | MERN, RESTful API, Mongodb, Redis, RazorPay

October 2025 – January 2026

- Developed a full-stack numerology platform with 5+ core modules, including authentication, consultation booking, e-commerce functionality, payment processing, and role-based administration.
- Built and integrated 15+ RESTful APIs supporting consultation management, product operations, order tracking, and secure payment workflows.
- Implemented JWT-based authentication, Redis caching, and role-based access control to improve security and application performance.
- Optimised application performance using React Lazy Loading, reducing initial page load time by approximately 35-40%.
- Live Demo**

HireWise | Nextjs, Postgresql, Clerk, Tailwind CSS, Chadcn, Drizzle, AI integration

May 2024 – June 2024

- Expanded an AI-powered mock interview platform using Next.js, PostgreSQL, Drizzle ORM, and Clerk Authentication.
- Designed dynamic interview generation for 12+ technical roles, delivering personalised question sets based on user experience and technology stack.
- Integrated speech-to-text, text-to-speech, and AI-driven feedback systems to simulate realistic interview experiences and improve candidate preparation.
- Live Demo**

Aggregate | React.js, Tailwind, Node.js, Redux, RESTful API

January 2024 – March 2024

- Enhanced a crop recommendation system using React.js and Node.js that generated crop and fertiliser suggestions based on soil NPK and pH values.
- Aggregated and validated agricultural datasets from 10+ trusted sources to improve recommendation accuracy.
- Designed data-driven recommendation workflows supporting informed agricultural decision-making.
- Live Demo**

TECHNICAL SKILLS

Languages/Framework: C++, Java, Golang, Python, JavaScript, HTML/CSS, ReactJS, NodeJS, ExpressJS, SQL, Microservices, PWA, GenAI

Tools: Git/GitHub, VS Code, PyCharm, Postman, Docker

Databases: MongoDB, MYSQL, Redis

EDUCATION

Vellore Institute of Technology, Bhopal

September 2021 – July 2025

B.Tech Computer Science and Engineering

CGPA: 8.4/10

Central Academy

April 2019 – May 2020

Class XII, CBSE

Percentage: 88.6

COURSEWORK

Object-Oriented Programming, Data Structures & Algorithms, System Design

CERTIFICATION

Job Ready Cohort (Sheryian's Coding School)

DSA in C++ (iamneo)

ACHIEVEMENTS

Captain, Lucknow Under-19 Cricket Team

Engaged deeply with 600+ data structure challenges on LeetCode and GeeksforGeeks
